

Cheezo and I were so surprised and pleased to be recognized at the 18th Northeast Clown Institute and have the weekend dedicated to us along with John Spear. Thank you all so much! We have been doing clown conventions nearly 30 years and none are as well organized, so eagerly attended, nor as dedicated to improving the art of clowning with a greater goal, than the Northeast Clown Institute. Many years ago, long before the thought of clowns in my life was ever conceived, my grandfather (Bob Nordstrom, Director of the Oriental Band - Aleppo) would often say "The brothers are good men, but those clowns are the best." And he was right!
